

# Cystikare

## Natural Formula for Women Care

**CYSTIKARE** containing 200 mg Cranberry Extract and 50 mg D-Mannose, best in class French formulation with Lactobacillus to target odds that a young woman faces especially Urinary Tract Infections. Both D-Mannose and Proanthocyanidines (main active constituent in Cranberry) commonly used to treat Urinary Tract Infections, Increase Urine Flow and many other disorders.

### • INDICATIONS

Fight against Female Urinary Discomfort, Prevent recurrence and Maintain a Urinary hygiene. CYSTIKARE 250 mg cures Burning, Tingling, Pressure in the lower Abdomen and Persistent urge to Urinate.

#### • Cranberry extract

**Cystikare 250 mg** specially enriched with **200 mg of Cranberry** that makes the women's overall wellness especially Polycystic Ovary Syndrome.

Cranberries are composed of water (88%), organic acids (including salicylate), fructose, vitamin C (high levels, i.e., 200 mg/kg of fresh berries), flavonoids, Anthocyanidins, Catechins, and Triterpenoids.

Cranberry is most commonly use to treat **Urinary Tract Infections, Increase Urine Flow** and many other disorders.

#### • D-Mannose

**D-Mannose** is a naturally-occurring monosaccharide that promotes normal function of the urinary tract by inhibiting certain types of bacteria from adhering to the walls of the urinary tract. Cranberry contains unique phenolic compounds possessing an anti-adherence factor that helps to maintain the health of the Urinary Tract (Uroepithelial cells).

**D-mannose 50mg** binds and blocks FimH adhesin, which is positioned at the tip of the type 1 fimbria of enteric bacteria. As it is similar in structure to the binding site of urothelial glycoprotein receptors, D-mannose acts as a competitive inhibitor of bacterial adherence; in sufficient concentration in urine D-mannose causes saturation of FimH adhesins and prevents the bacteria from binding to urothelial receptors. D-mannose powder had significantly reduced the risk of recurrent UTI which was no different than in Nitrofurantoin group.

# Cystikare

## Cranberry Extract & D-Mannose

## 1x10 Softgel Capsules

### • DOSAGE

#### ORAL

Adult & children over 12 years : 1 cap. three times a day.
