

# D3Vit

## Cholecalciferol 60000 IU

Updated French Formulation per European Union Standards, Our **D3VIT** Range (Softgel Capsules, Liquid Oral Shots) carries Imported Cholecalciferol 74000 IU, stabilised to Local Conditions at 60000 IU. Finest product to prevent or treat various body types and life strata for bones and skin growth. A Medicinal Plant Derivative with no findings on side effects.

### • INDICATIONS

Must Have Vitamin for Speedy Wound Healing and age related disorders Osteoporosis, Management of hypocalcemia and Bone Growth.

### • Cholecalciferol (Vitamin D3) – 60000 IU

Synthesis of vitamin D takes place in the skin under the affect or effect of sunlight. Despite this fact, studies have shown widespread prevalence of hypovitaminosis D that may have an adverse impact on Bones and Joint Health.

In adults with vitamin D deficiency, the newly formed bone matrix (the osteoid) is not mineralized, causing osteomalacia.

Oral vitamin D supplementation increases bone mineral density and appears to reduce the risk of hip and other nonvertebral fractures. Additionally helping wound healing on fastest pace.

# D3Vit

## Cholecalciferol 60000 IU

### 1x4 Softgel Capsules
