

Extra Smiles & Healthy Gums

ORAL2 tooth care concentrate is a two drop 100% natural oral solution of nine herbal extracts. Special concentrate to release their synergetic powers with the excellent combination of Sapindustrifolium, Zanthoxylunarmatum, Khadiradibati as well as Carryophyllus aromatics and Menthaoil which strengthens Teeth and Gums.

• INDICATIONS

Cures Pyorrhea, Bad Odour, Tooth Sensitivity, Resistant Stains

• DIRECTIONS

Simply Pour 2-3 Drops on a wet Toothbrush & brush as Usual.

• PRECAUTIONS

Keep out of reach of children. Recommended brushing twice.

• Sapindus trifoliatius

Because of Its Anti-inflammatory property, the powdered **Sapindus trifoliatius** seeds are traditionally used for treating arthritis and dental caries (tooth decay or cavity also in order to get relief from joint pain a soft moist mass) is prepared and applied on the affected areas.

• Zanthoxylum armatum

It is used traditionally to get relief from tooth ache. It has numbing effect on teeth and gums. In Ayurveda, it is used for skin diseases, loss of smell, heaviness and pain in head, chronic coryza and arthritis.

• Carryophyllus aromatics

Eugenol, one of the chemicals in **Carryophyllus aromatics**, acts like menthol to reduce the harshness of tobacco smoke and decrease the toothache. Clove is applied directly to the gums (used topically) for toothache, for pain control during dental work, and for a complication of tooth extraction called "dry socket."

• Khadiradi Bati

It is used in Ayurvedic treatment of stomatitis, bad breath, diseases of teeth, dental caries, diseases of throat, tonsillitis, anorexia, locked jaw and such other diseases of buccal cavity. Also prescribe this for the treatment of Burning sensation in mouth
